

Registered Apprenticeships in Manufacturing

A customized solution to building skilled and productive leaders

Do you struggle to find skilled and productive leaders to meet customer demands?

The Solution: Registered Apprenticeships

Registered apprenticeships are a customizable work-and-learn program that combines on-the-job training with job related classroom instruction that meets national standards for registration with the Department of Labor or State Apprenticeship Agencies. These programs provide employers with the talented workforce needed to remain competitive.

**Total of
\$500,000 in
incentives
for new
programs!**

Components of a Registered Apprenticeship Program

- ♦ Structured on-the-job training
- ♦ Business involvement
- ♦ Related instruction
- ♦ Rewards for skill gains
- ♦ Nationally-recognized credentials

For more information & support on building a program, visit:

Employer Benefits

- ♦ Vehicle to recruit a more diverse, skilled, and talented workforce
- ♦ Dedicated pipeline of future company leaders
- ♦ Improved productivity and profitability
- ♦ Customized training that aligns with advances in technology and company-specific needs
- ♦ Program can be structured for new hires or current employees
- ♦ Ability to offer job-related instruction at the company or in partnership with a local community college

About NIMS

NIMS is the developer of quality competency-based skills standards and credentials for jobs in manufacturing and related industries. In September 2016, NIMS was selected by the Department of Labor as an industry intermediary to support the expansion of registered apprenticeship within manufacturing. Through these efforts, NIMS certifies a safe and skilled workforce for the global economy.
