SCSEP All-Grantee Call – January 17, 2024

0:0:0.0 --> 0:0:3.270
Mauro, Kevin M - ETA CTR
So, Bradley, if you don't mind, please start the recording.

0:0:5.830 --> 0:0:6.970
Bronson, Bradley K - ETA CTR
Recording has started.

0:0:17.350 --> 0:0:17.580
Mauro, Kevin M - ETA CTR
And.

0:0:14.600 --> 0:0:18.190
Wilson, Toni K - SCSEP
Alright, hopefully everybody. Uh.

0:0:22.80 --> 0:0:24.250
Lakeisha Robertson (Guest)
It's your cameras are off and you're currently muted.

0:0:24.260 --> 0:0:26.490
Lakeisha Robertson (Guest)
If you agree to being recorded this time.

0:0:33.290 --> 0:0:33.490
Elizabeth Berke
Yeah.

0:0:20.670 --> 0:0:34.310
Mauro, Kevin M - ETA CTR
I was going to say since your cameras are off and you're currently muted, if you agree to being recorded this time, you may turn on your camera or unmute yourself at which time the agreement prompt will pop up on your screen where you can accept.

0:0:36.20 --> 0:0:38.100
Mauro, Kevin M - ETA CTR
I'll give you a moment to do that.

0:0:38.390 --> 0:0:40.170
Mauro, Kevin M - ETA CTR
I'll also pull up the agenda.

0:0:41.120 --> 0:0:41.830
Hannon-Penny, Beth
Something over that.

0:0:41.330 --> 0:0:49.490
Mauro, Kevin M - ETA CTR
I also ask if you've unmuted yourself to agree to being recorded, please re-mute yourself and as always, thank you for your cooperation.

0:0:50.50 --> 0:0:52.920
Mauro, Kevin M - ETA CTR
So now I will hand things over to Toni to begin the call.

0:0:54.880 --> 0:1:0.310
Wilson, Toni K - SCSEP
Thank you so much, Kevin and happy New Year everyone.

0:1:0.370 --> 0:1:9.930
Wilson, Toni K - SCSEP
I know the expiration date on saying that is coming very quickly, but this is our first in 2024, so I definitely wanted to send that out.

0:1:10.40 --> 0:1:14.570
Wilson, Toni K - SCSEP
I hope all had a good holiday season.

0:1:17.610 --> 0:1:30.520
Wilson, Toni K - SCSEP
For those that are first time my name is Toni Wilson and I am the SCSEP unit chief and today the SCSEP national team is here.

0:1:30.530 --> 0:1:33.630
Wilson, Toni K - SCSEP
If you guys can introduce yourselves and give a quick wave.

0:1:36.770 --> 0:1:38.300
Wilson, Toni K - SCSEP
Start with Irene.

0:1:44.530 --> 0:1:45.120
Wilson, Toni K - SCSEP
All right.

0:1:45.130 --> 0:1:45.860
Wilson, Toni K - SCSEP
It's not Irene.

0:1:45.870 --> 0:1:47.550
Wilson, Toni K - SCSEP
Let's start with Byron.

0:1:48.750 --> 0:1:49.620
Kline, Byron - ETA
Hi everyone.

0:1:49.970 --> 0:1:54.580
Kline, Byron - ETA
Byron Kline, National Office liaison for regions 3 and Region 6.

0:1:56.150 --> 0:1:56.900
Wilson, Toni K - SCSEP
Thank you.

0:1:57.550 --> 0:1:58.490
Wilson, Toni K - SCSEP
How about you, Ali?

0:2:0.440 --> 0:2:0.700
Miller, Coreena J - ETA
Thing.

0:2:0.320 --> 0:2:2.350
Slaughter, Alison S - ETA
Good afternoon, everyone.

0:2:2.360 --> 0:2:3.990
Slaughter, Alison S - ETA
I'm Ali Slaughter and I am the SCSEP performance and reporting lead.

0:2:6.950 --> 0:2:7.580
Wilson, Toni K - SCSEP
Alright.

0:2:7.640 --> 0:2:8.790
Wilson, Toni K - SCSEP
And I see you on the screen, Irene?

0:2:10.70 --> 0:2:11.860
Adams, Anita (Irene) - ETA
Yeah, I had to duck out for a second.

0:2:11.950 --> 0:2:12.550
Wilson, Toni K - SCSEP
No, no worries.

0:2:12.310 --> 0:2:21.250
Adams, Anita (Irene) - ETA
My name is Irene Adams and I am the SCSEP, National Office Liaison for regions one and five.

0:2:22.740 --> 0:2:23.110
Wilson, Toni K - SCSEP
All right.

0:2:23.120 --> 0:2:26.350
Wilson, Toni K - SCSEP
And Sondra, Sondra on the lines.

0:2:26.360 --> 0:2:27.360
Wilson, Toni K - SCSEP
She might have had a conflict.

0:2:28.210 --> 0:2:29.110
Wilson, Toni K - SCSEP
Hi there, you go, Sondra.

0:2:27.380 --> 0:2:30.260
Grant-McGary, Sondra D - ETA
Hey, happy New Year, everyone.

0:2:30.270 --> 0:2:31.80
Grant-McGary, Sondra D - ETA
Welcome back.

0:2:31.830 --> 0:2:34.420
Grant-McGary, Sondra D - ETA
Well I guess, not welcome back but welcome to the New Year.

0:2:34.650 --> 0:2:39.540
Grant-McGary, Sondra D - ETA
I am the National Office liaison for regions two and four. Happy to see everyone.

0:2:40.260 --> 0:2:41.30
Wilson, Toni K - SCSEP
All right.

0:2:41.170 --> 0:2:45.810
Wilson, Toni K - SCSEP
And then we have our contractors on the line.

0:2:46.220 --> 0:2:52.880
Wilson, Toni K - SCSEP
We have our technical assistance contractors, TwoTech and I'll start out with you, Michi and team.

0:2:55.570 --> 0:2:56.720
McNeace, Meche - ETA CTR
Afternoon everyone.

0:2:56.730 --> 0:3:0.50
McNeace, Meche - ETA CTR
This is Michi with TwoTech and happy New Year as well.

0:3:2.640 --> 0:3:3.760
Barcley, Joyce M - ETA CTR
Good afternoon everyone.

0:3:3.770 --> 0:3:5.980
Barcley, Joyce M - ETA CTR
This is Joyce Barcley with TwoTech, happy New Year.

0:3:8.360 --> 0:3:9.110
Mauro, Kevin M - ETA CTR
And good afternoon.

0:3:8.350 --> 0:3:9.840
Bronson, Bradley K - ETA CTR
A happy New year.

0:3:9.990 --> 0:3:11.840
Bronson, Bradley K - ETA CTR
This is Bradley Bronson with TwoTech.

0:3:13.440 --> 0:3:15.530
Mauro, Kevin M - ETA CTR
And happy New Year again, everyone.

0:3:15.540 --> 0:3:17.170
Mauro, Kevin M - ETA CTR
This is Kevin Mauro with TwoTech.

0:3:18.840 --> 0:3:19.140
Wilson, Toni K - SCSEP
Yeah.

0:3:22.750 --> 0:3:22.950
Wilson, Toni K - SCSEP
Yeah.

0:3:18.560 --> 0:3:23.760
Wilkins, Patricia A - ETA CTR
And hi everybody, this is Pat Wilkins with TwoTech and that will do it for our team.

0:3:24.130 --> 0:3:24.780
Wilson, Toni K - SCSEP
All right.

0:3:24.790 --> 0:3:30.880
Wilson, Toni K - SCSEP
And then we also have our technical assistance side with BCT.

0:3:31.310 --> 0:3:37.10
Wilson, Toni K - SCSEP
So all things GPMS and performance, and I'll start out with you, Denise and your team.

0:3:37.840 --> 0:3:38.630
Denise Thompson
Hi everyone.

0:3:38.640 --> 0:3:39.910
Denise Thompson
My name is Denise Martin.

0:3:39.920 --> 0:3:42.180
Denise Thompson
For BCT partners, Happy New Year.

0:3:44.350 --> 0:3:45.310
Lynch, Leila I - ETA CTR
Hello everyone.

0:3:45.320 --> 0:3:47.230
Lynch, Leila I - ETA CTR
Good afternoon and happy New Year.

0:3:47.300 --> 0:3:50.70
Lynch, Leila I - ETA CTR
My name is Leila Lynch and I'm a member of the BCT team.

0:3:51.880 --> 0:3:54.430
Mark Amspoker
And I'm Mark Amspoker, BCT Partners.

0:3:54.670 --> 0:3:55.280
Mark Amspoker
Hello, everybody.

0:3:56.560 --> 0:3:59.180
Wilson, Toni K - SCSEP
And is there anyone on from uh Charter Oaks?

0:3:59.620 --> 0:4:0.210
Ron Schack
Yes.

0:4:0.260 --> 0:4:1.90
Ron Schack
Hi, everyone.

0:4:1.100 --> 0:4:3.270
Ron Schack
It's Ron Schack from the Charter Oak group.

0:4:3.420 --> 0:4:4.120
Ron Schack
Happy New year.

0:4:5.350 --> 0:4:9.840
Wilson, Toni K - SCSEP
Alright, thank you and Charter Oak does a lot of our performance work, also.

0:4:10.140 --> 0:4:14.80
Wilson, Toni K - SCSEP
Just making sure we make that distinction. Alright.

0:4:14.90 --> 0:4:20.260
Wilson, Toni K - SCSEP
Well, welcome everyone, and let's see, we're gonna jump right in.

0:4:20.470 --> 0:4:21.160
Wilson, Toni K - SCSEP
So I see…

0:4:21.170 --> 0:4:22.770
Wilson, Toni K - SCSEP
Hopefully you can see the screen.

0:4:22.780 --> 0:4:23.700
Wilson, Toni K - SCSEP
I'm gonna make it a little bigger.

0:4:24.110 --> 0:4:30.600
Wilson, Toni K - SCSEP
Umm I ate since 2023, so I'm gonna need a little bit of glasses here.

0:4:30.730 --> 0:4:37.240
Wilson, Toni K - SCSEP
So some just some of our program updates, so just wanted to highlight a few upcoming things.

0:4:37.550 --> 0:4:46.260
Wilson, Toni K - SCSEP
For the 2024 year, so you may have seen in our grant solutions, we have a forecast.

0:4:46.590 --> 0:4:50.600
Wilson, Toni K - SCSEP
So there is a few forecast announcements that are out there.

0:4:51.90 --> 0:4:54.830
Wilson, Toni K - SCSEP
There is some upcoming FOAs that will be out.

0:4:56.160 --> 0:4:59.900
Wilson, Toni K - SCSEP
I don't have a specific date, but we hope to have something this winter, but we'll have the national FOA.

0:5:6.560 --> 0:5:20.130
Wilson, Toni K - SCSEP
And as you've probably seen in our forecast, uh, we are working on a demonstration FOIA that will be focused on sector strategy for older workers.

0:5:20.520 --> 0:5:30.430
Wilson, Toni K - SCSEP
Once published, we'll use this space to kind of a kind of remind people in reference to going to grants.gov, etc.

0:5:31.730 --> 0:5:34.780
Wilson, Toni K - SCSEP
Also, we have the state plan TEGL.

0:5:35.90 --> 0:5:37.20
Wilson, Toni K - SCSEP
Hopefully that will be out shortly.

0:5:37.330 --> 0:5:39.210
Wilson, Toni K - SCSEP
So just keep an eye out for that.

0:5:39.580 --> 0:5:52.940
Wilson, Toni K - SCSEP
And as you know, that goes with the larger WIOA state plan TEGL, but just more of the specifics around SCSEP. And once that is published, we will also do a do a walkthrough of that piece.

0:5:54.410 --> 0:5:59.790
Wilson, Toni K - SCSEP
There is also on the horizon a potential IT TEGL for

0:6:2.590 --> 0:6:4.640
Wilson, Toni K - SCSEP
State grantees.

0:6:5.350 --> 0:6:15.840
Wilson, Toni K - SCSEP

This is basically another bite at the apple in reference to the IT grants, hopefully giving state grantees an opportunity to have a little longer in reference to

0:6:17.640 --> 0:6:24.380
Wilson, Toni K - SCSEP
Procurement aspects of any kind of IT work that they need. And so that should be going out very shortly.

0:6:25.190 --> 0:6:31.600
Wilson, Toni K - SCSEP
I do know that there's been some ask about modifications for those that have already have an IT grant.

0:6:31.610 --> 0:6:33.770
Wilson, Toni K - SCSEP
So we are talking with

0:6:35.500 --> 0:6:44.710
Wilson, Toni K - SCSEP
Our grant office, just to you, confirm and we'll work through your FOA on an individual basis and reference to what those options are.

0:6:45.340 --> 0:6:50.950
Wilson, Toni K - SCSEP
And then obviously all of the allotment TEGLs they come out later in spring.

0:6:51.400 --> 0:6:59.710
Wilson, Toni K - SCSEP
So once again, just keep yourselves connected with grants.gov and grants solutions in reference to those.

0:7:0.180 --> 0:7:26.490
Wilson, Toni K - SCSEP
Uh, that pieces of information. And then just one other update before I moved to Equitable Distribution is you will get specific updates on the GPMS work, but please know that we have been working behind the scenes in reference to really you know continuing to try to stabilize the system.

0:7:27.100 --> 0:7:45.380
Wilson, Toni K - SCSEP
There are various releases that have come out and are upcoming, which you will continue to hear about and once we have a few more of these releases out, we'll have an opportunity to kind of have a conversation about where things are with GPMS and kind of the upcoming training.

0:7:46.70 --> 0:7:48.560
Wilson, Toni K - SCSEP
So we definitely appreciate your patience.

0:7:49.290 --> 0:8:10.330
Wilson, Toni K - SCSEP
We are hopefully close to being over the hump in reference to the system itself and can start moving into fully utilizing the system and the training aspect. But I encourage you in the meantime to still continue to use the GPMS V-Live.

0:8:10.490 --> 0:8:23.860
Wilson, Toni K - SCSEP
I know that's been an opportunity to kind of learn and learn from each other peer sharing and continue to stay connected with our GPMS newsletter, which provides the latest updates and releases.

0:8:24.310 --> 0:8:28.560
Wilson, Toni K - SCSEP
So and as I said, you'll hear about those… details of those in a few minutes.

0:8:30.200 --> 0:8:37.10
Wilson, Toni K - SCSEP
So those are some of the upcoming announcements and then obviously the state plans themselves.

0:8:37.330 --> 0:8:41.370
Wilson, Toni K - SCSEP
And so just kind of keeping an eye and making sure that you are connected to the portal.

0:8:43.290 --> 0:8:47.170
Wilson, Toni K - SCSEP
So and if you have any questions on those, please put that in the chat.

0:8:47.180 --> 0:8:57.440
Wilson, Toni K - SCSEP
We'll make sure we get to those questions, but in the meantime, I'm gonna hand this over to Ali and reference to just giving us an update on the equitable distribution reports.

0:8:59.190 --> 0:9:0.120
Slaughter, Alison S - ETA
Thank you, Toni.

0:9:0.130 --> 0:9:7.880
Slaughter, Alison S - ETA
And actually before I jump into ED, I'm gonna add something that we that didn't make it on the agenda because it was just published this morning.

0:9:8.370 --> 0:9:13.580
Slaughter, Alison S - ETA
HHS released the new poverty guidelines for 2024.

0:9:14.130 --> 0:9:17.580
Slaughter, Alison S - ETA
It was published today, but the effective date is January 11th.

0:9:17.750 --> 0:9:24.980
Slaughter, Alison S - ETA
I just added it in the chat here, but we will make sure to follow up with an email, so you have that information in email as well.

0:9:25.820 --> 0:9:36.320
Slaughter, Alison S - ETA
The developers for GPMS have this information, so they are working to update those numbers in the system and we will let you know when GPMS has the updated guidelines as well.

0:9:37.830 --> 0:9:46.760
Slaughter, Alison S - ETA
And moving on to Equitable Distribution, we had our webinar back in December on the equitable distribution reports.

0:9:46.970 --> 0:9:55.640
Slaughter, Alison S - ETA
If you didn't get a chance to attend, you can view the recording and all of those materials on WorkforceGPS and I will add that in the chat as well.

0:9:56.980 --> 0:10:8.70
Slaughter, Alison S - ETA
Umm, just this last week we did have a grantee bring to our attention an issue with or a discrepancy with the reports and GPMS the enrolled column in the ED reports were not accurate, so thank you to Ohio for bringing that to our attention.

0:10:13.310 --> 0:10:24.520
Slaughter, Alison S - ETA
Because of that you received updated manual spreadsheets with the correct enrollment information as well as the modified positions.

0:10:24.670 --> 0:10:26.20
Slaughter, Alison S - ETA
There were two emails sent.

0:10:26.150 --> 0:10:37.840
Slaughter, Alison S - ETA
The first one had authorized positions and the one that was sent yesterday is the one you should be referencing and that is modified positions and we have Mark here today who will be giving us a brief demo on how to use those spreadsheets.

0:10:38.370 --> 0:10:42.110
Slaughter, Alison S - ETA
Because of that change in the data source, we did move the deadline.

0:10:42.520 --> 0:10:45.700
Slaughter, Alison S - ETA
It was due on January 26th.

0:10:45.760 --> 0:10:48.410
Slaughter, Alison S - ETA
The new deadline is now February 16th.

0:10:48.420 --> 0:10:54.210
Slaughter, Alison S - ETA
So you still have a month to complete those reports and we are here to help with any of your technical assistance needs.

0:10:54.220 --> 0:10:58.550
Slaughter, Alison S - ETA
So please reach out to your FPO and you can copy your NOL, and we can get you the help right away.

0:10:59.140 --> 0:11:8.970
Slaughter, Alison S - ETA
It do wanna say one more thing on ED before we… I pass it back to Toni, there's been a couple of questions about which quarters and which data you should be using.

0:11:9.300 --> 0:11:21.180
Slaughter, Alison S - ETA
So as we talked about during the webinar: PY 23, quarter one is the basis for your reports. When we assigned that report, that was the most recently completed quarter.

0:11:21.190 --> 0:11:29.970
Slaughter, Alison S - ETA
So the basis for your report should be PY 23 quarter one, but equitable distribution can't be examined by just looking at one quarter in time.

0:11:29.980 --> 0:11:32.950
Slaughter, Alison S - ETA
You have to look at trends over multiple quarters.

0:11:33.200 --> 0:11:36.180
Slaughter, Alison S - ETA
So that's why you received three quarters worth of data.

0:11:36.190 --> 0:11:42.990
Slaughter, Alison S - ETA
You also received PY 22, quarter three and PY 22, quarter four so that you can help with your analysis.

0:11:43.600 --> 0:11:45.10
Slaughter, Alison S - ETA
You wanna look for trends, right?

0:11:45.20 --> 0:11:51.750
Slaughter, Alison S - ETA
Not just in one quarter, but if there was under enrollment in multiple quarters, that's something notable that you would want to include in your report.

0:11:51.920 --> 0:11:54.30
Slaughter, Alison S - ETA
So that's why you have those three quarters of data.

0:11:54.320 --> 0:12:2.0
Slaughter, Alison S - ETA
But for the section one of the report where it asks you to put those numbers in the chart, your basis is gonna be PY 23 quarter one.

0:12:2.470 --> 0:12:8.670
Slaughter, Alison S - ETA
And again, we'll have a brief demonstration at the end and then please reach out with any questions. All right, back to you, Toni.

0:12:11.850 --> 0:12:13.510
Wilson, Toni K - SCSEP
Thank you so much, Ali.

0:12:14.490 --> 0:12:17.120
Wilson, Toni K - SCSEP
And before we move on, I just wanna go back.

0:12:17.130 --> 0:12:18.990
Wilson, Toni K - SCSEP
I saw that there was a question about the IT…

0:12:20.300 --> 0:12:28.470
Wilson, Toni K - SCSEP
potential modifications I want to make it clear that we are not officially granting mods or extensions on the IT grants.

0:12:28.700 --> 0:12:36.560
Wilson, Toni K - SCSEP
We are working with the grant office to see if extensions can be possible, and we'll be working on an individual basis.

0:12:36.570 --> 0:12:41.990
Wilson, Toni K - SCSEP
So if you do need one, please reach out to your FPO and we will let you know if you can.

0:12:42.0 --> 0:12:51.990
Wilson, Toni K - SCSEP
So I just wanted to make sure of that. As of right now, there is no additional funding, so most of them would be no-cost extensions. If those changes

0:12:52.480 --> 0:13:15.460
Wilson, Toni K - SCSEP
I will be sure to let you know that. That is obviously in addition to the state IT TEGL that will go out and that one is additional funding for the States who did not have an opportunity to apply last time, and this gives them another chance… a bite at the apple.

0:13:15.470 --> 0:13:17.230
Wilson, Toni K - SCSEP
And so that is new and additional money.

0:13:17.710 --> 0:13:19.160
Wilson, Toni K - SCSEP
So just wanted to clarify that.

0:13:19.170 --> 0:13:24.880
Wilson, Toni K - SCSEP
So no one's leaving with, umm, a different understanding.

0:13:26.510 --> 0:13:27.260
Wilson, Toni K - SCSEP
All right.

0:13:27.390 --> 0:13:28.840
Wilson, Toni K - SCSEP
So thank you for that.

0:13:28.850 --> 0:13:40.860
Wilson, Toni K - SCSEP
And we're gonna now move to a grants management updates and I'm actually gonna pass it over to Irene to talk a little bit about our assistance with state plans. Irene?

0:13:41.490 --> 0:13:42.600
Adams, Anita (Irene) - ETA
Thank you, Toni.

0:13:43.70 --> 0:13:57.900
Adams, Anita (Irene) - ETA
I just wanted to remind our grantees out there that when you, I know that you guys are working very hard on your state plans, whether it's in the WIOA portal or on your individual SCSEP standalones.

0:13:58.30 --> 0:14:12.200
Adams, Anita (Irene) - ETA
And I just want to remind you that if you need assistance with putting your state plan together and schedules and things like that, please, please, please utilize your FPO as well as your NOL to help guide you through this process.

0:14:14.40 --> 0:14:31.330
Adams, Anita (Irene) - ETA
We get a lot of questions about the Governors letter, designation letter; you are free to submit those now or you can submit them with your state plan submission as long as just we have who can… who can submit the SCSEP portion.

0:14:31.480 --> 0:14:32.810
Adams, Anita (Irene) - ETA
It's all good with us.

0:14:33.160 --> 0:14:40.450
Adams, Anita (Irene) - ETA
So just utilize your FPO's and utilize your NOLs and getting assistance with your state

0:14:40.460 --> 0:14:42.780
Adams, Anita (Irene) - ETA
Plan… your state strategic planning.

0:14:44.510 --> 0:15:2.760
Adams, Anita (Irene) - ETA
I just wanted I wanted to also provide you with a little bit of insight on processing amendments. Now as you know, with grant solutions you have the power to actually send an amendment in or what we used to call modifications.

0:15:3.110 --> 0:15:14.130
Adams, Anita (Irene) - ETA
So you would submit your amendment into grants solutions and the way it's supposed to happen is: the your FPO is supposed to get a notification that you

0:15:14.200 --> 0:15:19.410
Adams, Anita (Irene) - ETA
You have submitted it and review it from that situation.

0:15:19.420 --> 0:15:22.560
Adams, Anita (Irene) - ETA
We're not sure that this is necessarily happening.

0:15:22.860 --> 0:15:26.350
Adams, Anita (Irene) - ETA
It's possible that the FPO could have been getting crossed up.

0:15:27.350 --> 0:15:27.730
Adams, Anita (Irene) - ETA
Umm.

0:15:28.130 --> 0:15:39.460
Adams, Anita (Irene) - ETA
Or they have different… you've changed FPOs… a lot of things could happen but it's not happening and… your amendments are getting stuck somewhere in the system.

0:15:39.630 --> 0:15:56.0
Adams, Anita (Irene) - ETA
So just make sure if you're gonna upload an amendment, please make sure that you copy your FPO to alert them in a separate email so that they know that they… to go and look for it and make sure that your NOL knows about it too, so that there is a backup.

0:15:56.980 --> 0:16:32.420
Adams, Anita (Irene) - ETA
There's also a overarching requirement now that across the systems to would grant solutions, PMS and

SAM that the name associated with the information must match the SAM registration. Before we would just use that… you're SAM number, but now your name has to be consistent as… when you register, your name has to be consistent across the board with what you registered under SAM. The validations are getting more and more stringent.

0:16:32.900 --> 0:16:40.570
Adams, Anita (Irene) - ETA
Any discrepancies may result in your inability to award funds or to report on an existing award.

0:16:41.80 --> 0:16:42.710
Adams, Anita (Irene) - ETA
Now, help us here.

0:16:43.680 --> 0:16:54.290
Adams, Anita (Irene) - ETA
Our accounting office can make the name change through the PMS portal, but it has to be changed to the one matching what's in SAM's.

0:16:54.340 --> 0:17:2.530
Adams, Anita (Irene) - ETA
Sam.gov. So, and the NOA has to also… well, yeah, it has to match what's in sam.gov.

0:17:2.570 --> 0:17:17.60
Adams, Anita (Irene) - ETA
So be sure you connect with your FPO to ensure that they know about any amendments that you submit or if you are having any issues submitting amendments.

0:17:17.170 --> 0:17:18.240
Adams, Anita (Irene) - ETA
I hate to say amendments.

0:17:18.250 --> 0:17:28.920
Adams, Anita (Irene) - ETA
I'm still stuck on the word modification, so… and just be sure to let your FPO and NOL know about any issues that you have and with them. We can't…

0:17:28.970 --> 0:17:41.870
Adams, Anita (Irene) - ETA
We might not be able to help you, but we definitely can… can help usher your issue through the system. And the last thing that I wanted to… this is information that we really need from you.

0:17:42.900 --> 0:17:47.670
Adams, Anita (Irene) - ETA
There have been a couple of issues raised regarding state-required sick leave accrual.

0:17:48.20 --> 0:17:53.570
Adams, Anita (Irene) - ETA
Of course, you know, sick leave is, according to our regs, sick leave.

0:17:53.580 --> 0:18:10.30
Adams, Anita (Irene) - ETA
You cannot accrue sick leave and carry it over in SCSEP and we just wanna know what states are changing to the state, requires sick leave accrual and how you guys are being impacted AND how are you dealing with this… This issue?

0:18:12.170 --> 0:18:25.140
Adams, Anita (Irene) - ETA
We, as with prevailing wage, we're all over the place that how we're approaching it and we just want to be able to see if what you're doing is aligned with what is needed for SCSEP regulations.

0:18:25.270 --> 0:18:47.460
Adams, Anita (Irene) - ETA
So if you have an issue regarding state required sick leave accrual, please please please let your FPO know so that… and with a copy to your NOL so that we can we can take a look at it and make sure that you have something in place that is still SCSEP compliant. And that's it for me! I turned it back to you Toni.

0:18:48.490 --> 0:18:49.0
Wilson, Toni K - SCSEP
All right.

0:18:49.10 --> 0:18:53.380
Wilson, Toni K - SCSEP
Before we move, I see that there's some questions that are related to your section.

0:18:53.670 --> 0:19:0.710
Wilson, Toni K - SCSEP
One is: does the SAM name have to match the governor's designation for the SCSEP state Administrator?

0:19:2.400 --> 0:19:2.690
Adams, Anita (Irene) - ETA
No.

0:19:5.230 --> 0:19:13.760
Adams, Anita (Irene) - ETA
No. The SAM name must be the same name as the entity that is submitting… submitting the amendment.

0:19:15.120 --> 0:19:19.790
Adams, Anita (Irene) - ETA
So it has to go through that… the entity name, not the person's name.

0:19:21.580 --> 0:19:22.470
Wilson, Toni K - SCSEP
Thank you for that.

0:19:22.820 --> 0:19:26.300
Wilson, Toni K - SCSEP
And then I believe it's Carol has a question?

0:19:30.970 --> 0:19:31.920
Padovan, Carol - ETA
Yes, I do.

0:19:31.960 --> 0:19:33.700
Padovan, Carol - ETA
Well, actually I just have a suggestion.

0:19:34.340 --> 0:19:51.290
Padovan, Carol - ETA
Umm, I would like… I'm federal project officer in region 6 and I'd like to suggest that before you submit your amendments on to the GMS system that you send a draft to your FPO.

0:19:51.680 --> 0:19:54.970
Padovan, Carol - ETA
That way we can go over it and make any suggestions.

0:19:55.340 --> 0:19:59.350
Padovan, Carol - ETA
It just reduces the amount of sort of back and forth on that system.

0:19:59.410 --> 0:20:4.20
Padovan, Carol - ETA
And then once… you're, you know, we've got it right,

0:20:4.30 --> 0:20:8.60
Padovan, Carol - ETA
then at that point submit it and then we can move it forward probably faster.

0:20:10.930 --> 0:20:11.560
Wilson, Toni K - SCSEP
Yeah, that's a…

0:20:10.270 --> 0:20:12.310
Padovan, Carol - ETA
Umm, just last just last.

0:20:11.170 --> 0:20:13.560
Adams, Anita (Irene) - ETA
That is… that is a great suggestion.

0:20:13.630 --> 0:20:15.80
Adams, Anita (Irene) - ETA
That is a great suggestion, Carol.

0:20:15.940 --> 0:20:16.60
Wilson, Toni K - SCSEP
Yes.

0:20:15.90 --> 0:20:16.430
Adams, Anita (Irene) - ETA
Yeah, yeah.

0:20:15.910 --> 0:20:23.400
Padovan, Carol - ETA
Yeah, it's just less frustration for everybody involved because, as you mentioned we're having issues with GMS.

0:20:25.160 --> 0:20:25.910
Wilson, Toni K - SCSEP
Yeah.

0:20:25.790 --> 0:20:26.490
Adams, Anita (Irene) - ETA
To say the least.

0:20:26.260 --> 0:20:27.990
Wilson, Toni K - SCSEP
No, that's an excellent suggestion.

0:20:28.0 --> 0:20:30.970
Wilson, Toni K - SCSEP
As you know, you know DOL as a whole.

0:20:30.980 --> 0:20:57.240
Wilson, Toni K - SCSEP
We are up upgrading and changing systems, including grant solutions, and though you know the future of it is definitely going to be great, there are definitely some transitions. And so as we go through that transition, it is definitely helpful to, you know, do kind of some of your drafting and questions and things through email and then you can submit in the system itself your amendments.

0:20:57.470 --> 0:20:58.920
Wilson, Toni K - SCSEP
So we definitely encourage that.

0:21:0.930 --> 0:21:1.680
Wilson, Toni K - SCSEP
Alright.

0:21:1.690 --> 0:21:2.700
Wilson, Toni K - SCSEP
Is there?

0:21:2.950 --> 0:21:6.670
Wilson, Toni K - SCSEP
I see there is another question from Pamela? Pamela Grant?

0:21:9.110 --> 0:21:9.720
Pamela Grant
Yes.

0:21:10.950 --> 0:21:11.90
Wilson, Toni K - SCSEP
Yes.

0:21:9.890 --> 0:21:12.350
Pamela Grant
Can you hear me OK?

0:21:12.840 --> 0:21:16.640
Pamela Grant
I'm not so sure I'm understanding your comments related to accrual of sick leave.

0:21:25.160 --> 0:21:25.790
Wilson, Toni K - SCSEP
All right.

0:21:26.890 --> 0:21:27.240
Pamela Grant
Could you?

0:21:28.900 --> 0:21:33.750
Pamela Grant
Explain how that impacts the SCSEP program.

0:21:33.810 --> 0:21:35.10
Pamela Grant
I'm a little lost there.

0:21:36.550 --> 0:21:40.330
Wilson, Toni K - SCSEP
Irene did you want to elaborate or need a little assistance on that?

0:21:49.150 --> 0:21:49.550
Pamela Grant
We've lost.

0:21:46.540 --> 0:21:49.910
Wilson, Toni K - SCSEP
I think we've lost… Irene there.

0:21:50.120 --> 0:21:50.900
Wilson, Toni K - SCSEP
For there you go.

0:21:49.420 --> 0:21:52.60
Adams, Anita (Irene) - ETA
Oh, I'm sorry. Pam.

0:21:52.70 --> 0:21:53.320
Adams, Anita (Irene) - ETA
Give me a second on that.

0:21:53.360 --> 0:21:54.250
Adams, Anita (Irene) - ETA
I'm going to.

0:21:54.790 --> 0:21:57.910
Adams, Anita (Irene) - ETA
I'm going to look for it and respond in the chat, OK?

0:21:58.640 --> 0:21:59.170
Pamela Grant
OK.

0:21:59.280 --> 0:21:59.800
Pamela Grant
Thank you.

0:21:59.790 --> 0:22:0.610
Adams, Anita (Irene) - ETA
Uh hmm.

0:22:2.260 --> 0:22:2.620
Wilson, Toni K - SCSEP
All right.

0:22:2.630 --> 0:22:6.510
Wilson, Toni K - SCSEP
We will make sure that everybody gets, uh, that and we can look back to that also.

0:22:6.520 --> 0:22:13.970
Wilson, Toni K - SCSEP
Uh at the end just to make sure we're on the same page. So we appreciate that. And I think uh, lower your hand.

0:22:13.980 --> 0:22:17.260
Wilson, Toni K - SCSEP
I think that's it for the uh questions, at least for that section.

0:22:18.530 --> 0:22:27.940
Wilson, Toni K - SCSEP
So let's move on because we want to make sure we have enough time, especially for Mark, doing a walkthrough in reference to the equitable distribution report.

0:22:28.450 --> 0:22:33.680
Wilson, Toni K - SCSEP
So let's move to communication, outreach and training and technical assistance.

0:22:34.120 --> 0:22:40.310
Wilson, Toni K - SCSEP
I'm gonna pass it over to Kevin to give us an update on the Older Workers Community of Practice updates.

0:22:42.220 --> 0:22:42.950
Mauro, Kevin M - ETA CTR
Thanks, Toni.

0:22:42.960 --> 0:22:44.270
Mauro, Kevin M - ETA CTR
Hello again, everybody.

0:22:44.500 --> 0:22:50.650
Mauro, Kevin M - ETA CTR
I don't wanna take up too much time this afternoon because I know that we have… still have a lot to get to.

0:22:51.620 --> 0:23:5.800
Mauro, Kevin M - ETA CTR
Just want everyone to know that we are doing a lot of organizing on the back end of the Community of practice to try to make things accessible to you and to make sure that everything is flowing in the right direction and that you can get everything that you need.

0:23:7.170 --> 0:23:18.770
Mauro, Kevin M - ETA CTR
So the other thing I wanted to let you all know is that we are working very hard to make sure that any recordings that we make of meetings such as this one are available to you in a timely fashion.

0:23:19.220 --> 0:23:22.910
Mauro, Kevin M - ETA CTR
We've have a… pretty, we've been pretty good about that so far.

0:23:22.920 --> 0:23:35.510
Mauro, Kevin M - ETA CTR
We wanna keep that going in 2024, but just know that if there is a recorded event that you need someone on your team to see, give it a couple days and it should be all available to you.

0:23:36.90 --> 0:23:42.20
Mauro, Kevin M - ETA CTR
You know, with its transcript and all of that good stuff, but that's all I have for you in January.

0:23:42.130 --> 0:23:44.80
Mauro, Kevin M - ETA CTR
So I'll pass it right back to Toni.

0:23:45.110 --> 0:23:45.520
Wilson, Toni K - SCSEP
All right.

0:23:45.530 --> 0:23:46.770
Wilson, Toni K - SCSEP
Thank you so much, Kevin.

0:23:47.370 --> 0:23:55.250
Wilson, Toni K - SCSEP
And then also we have the GPMS live schedule, and I'm gonna pass that over to Joyce.

0:23:55.30 --> 0:23:55.400
Barcley, Joyce M - ETA CTR
Great.

0:23:55.410 --> 0:23:56.30
Barcley, Joyce M - ETA CTR
Thanks, Toni.

0:23:56.920 --> 0:23:57.550
Barcley, Joyce M - ETA CTR
OK, great.

0:23:57.560 --> 0:24:6.370
Barcley, Joyce M - ETA CTR
We kicked off 2024 with our first V-Live office hours last Wednesday and thank you to everyone who participates.

0:24:6.380 --> 0:24:15.730
Barcley, Joyce M - ETA CTR
It's getting to be very robust with questions and answers coming from both ends of the… of the virtual office.

0:24:16.0 --> 0:24:21.50
Barcley, Joyce M - ETA CTR
So again, thank you for everyone who does participate and it's a great opportunity.

0:24:21.600 --> 0:24:33.790
Barcley, Joyce M - ETA CTR

If there are people that are new to the system or people that have some challenges with the system, please feel free to forward the invitation to your subgrantees or the people that do data entry.

0:24:33.920 --> 0:24:53.400
Barcley, Joyce M - ETA CTR
If they do have any questions and can benefit from that, our next office hours, our next Wednesday, the 24th from 2:00 to 3:30 Eastern Time and the new schedule through the end of June did go out last week and it's the 2nd and 4th to a Wednesday of every month.

0:24:53.510 --> 0:24:58.200
Barcley, Joyce M - ETA CTR
Except, of course, when we have the grantee call and I think the only one that conflicted was in May.

0:24:58.270 --> 0:25:6.880
Barcley, Joyce M - ETA CTR
So you should have received your invitation and again, if you do have someone that might benefit, please feel free to forward that invitation to them.

0:25:7.30 --> 0:25:10.240
Barcley, Joyce M - ETA CTR
And as Kevin mentioned, everything is recorded.

0:25:10.250 --> 0:25:12.780
Barcley, Joyce M - ETA CTR
Transcripts are available on the community of practice.

0:25:12.970 --> 0:25:26.190
Barcley, Joyce M - ETA CTR
If you happen to miss anything, or if you want to take a look at things like the data collection handbook and/or any of the trainings that had taken place and earlier last year, and with that, I think that's it for me.

0:25:26.460 --> 0:25:27.560
Barcley, Joyce M - ETA CTR
Thanks, Toni, back to you.

0:25:27.970 --> 0:25:29.460
Wilson, Toni K - SCSEP
Alright, thank you so much, Joyce.

0:25:29.470 --> 0:25:37.980
Wilson, Toni K - SCSEP
We appreciate it and I encourage those to continue to attend those GPMS V-Live schedules.

0:25:38.870 --> 0:25:39.420
Wilson, Toni K - SCSEP
All right.

0:25:39.430 --> 0:25:42.730
Wilson, Toni K - SCSEP
So let's move to more details on GPMS.

0:25:43.10 --> 0:25:48.440
Wilson, Toni K - SCSEP
So I'm going to first start out with Byron, who's just going to give us a highlight from the GPMS newsletter.

0:25:48.450 --> 0:25:49.240
Wilson, Toni K - SCSEP
That will be out shortly.

0:25:51.310 --> 0:25:51.660
Kline, Byron - ETA
Great.

0:25:51.670 --> 0:25:52.230
Kline, Byron - ETA
Thank you, Toni.

0:25:53.660 --> 0:25:59.770
Kline, Byron - ETA
So the January edition of the SCSEP GPMS newsletter is out. In the latest issue We're continuing to spotlight the equitable distribution reports. Also included is the new due date for the ED report, which is February 16th.

0:26:10.570 --> 0:26:22.720
Kline, Byron - ETA
As Joyce mentioned, there are also links on the newsletter to the V-Live recordings, and as always, all this information is available on the older workers community of Practice page.

0:26:23.440 --> 0:26:24.170
Kline, Byron - ETA
That's it.

0:26:24.280 --> 0:26:32.910
Kline, Byron - ETA
If anyone would like to receive the newsletter and they are not receiving it, just shoot me an email and I'll make sure that you get it.

0:26:33.260 --> 0:26:33.870
Kline, Byron - ETA
That's it.

0:26:34.40 --> 0:26:34.760
Kline, Byron - ETA
Back to you, Toni.

0:26:35.350 --> 0:26:47.960
Wilson, Toni K - SCSEP
Thank you so much, Byron and I encourage those directors as a great thing to also share with your data entry staff or your subcontractor sub grantees.

0:26:48.630 --> 0:26:54.700
Wilson, Toni K - SCSEP
It's a lot of good tips and updated information, and that's a good source.

0:26:54.870 --> 0:26:58.320
Wilson, Toni K - SCSEP
So you can also include that information.

0:26:58.330 --> 0:27:7.170
Wilson, Toni K - SCSEP
We have kind of a separate database, so they're not down as like you're official contact, but they can get this specific information.

0:27:7.180 --> 0:27:8.410
Wilson, Toni K - SCSEP
So Please note that.

0:27:9.790 --> 0:27:12.880
Wilson, Toni K - SCSEP
Alright, so I am now going to pass it over.

0:27:12.890 --> 0:27:14.740
Wilson, Toni K - SCSEP
I believe it's a Leila.

0:27:14.750 --> 0:27:19.620
Wilson, Toni K - SCSEP
I'm passing it over to for some updates in reference to the GPMS.

0:27:20.880 --> 0:27:21.950
Lynch, Leila I - ETA CTR
Thank you, Toni.

0:27:22.580 --> 0:27:34.30
Lynch, Leila I - ETA CTR
Today we'll be talking about the GPMS release, 2023 authorized positions, technical assistance and tip of the month.

0:27:34.40 --> 0:27:51.330
Lynch, Leila I - ETA CTR
Release 2.3 was deployed on Tuesday, January 9th, and with this deployment there was a new feature: SCSEP new user enrollment, which I see many of you have already begun to you and have become familiar with it.

0:27:52.390 --> 0:27:59.780
Lynch, Leila I - ETA CTR
For others who have not yet used this feature, it is found on the DOL landing page of the application.

0:28:1.490 --> 0:28:19.350
Lynch, Leila I - ETA CTR
Steps and how to use this feature is also found on our website SCSEP-help.com. In the document GPMS production access and it was also included in the email sent on Thursday, January 11.

0:28:20.910 --> 0:28:29.90
Lynch, Leila I - ETA CTR
I would also like to remind you that the steps for asking for a new enrollment remains the same.

0:28:30.60 --> 0:28:34.70
Lynch, Leila I - ETA CTR
Please go through your grantee admin who will submit to Zendesk.

0:28:36.220 --> 0:28:52.430
Lynch, Leila I - ETA CTR
Those that are requesting access in the Excel spreadsheet, we will continue to get approval from the National Office and your information can then be submitted from the SCSEP new user enrollment function on the DOL page.

0:28:53.140 --> 0:28:57.240
Lynch, Leila I - ETA CTR
This is also outlined on our SCSEP-help Website.

0:29:3.460 --> 0:29:13.300
Lynch, Leila I - ETA CTR
Grantees were given the opportunity to reallocate their 2023 authorized positions and the deadline for that was December 29th.

0:29:13.460 --> 0:29:46.200
Lynch, Leila I - ETA CTR
I'd like to say thank you to all those grantees who have completed the reallocation and we are in the process of doing the modified positions and as soon as we've completed those calculations, the grantees will be informed and GPMS will be updated. As usual any assistance that you may need for technical assistance, please submit your request through a Zendesk ticket found on SCSEP-help.zendesk.com.

0:29:48.190 --> 0:29:53.330
Lynch, Leila I - ETA CTR
On our tip of the month is regarding preserving your access to GPMS.

0:29:55.350 --> 0:30:5.560
Lynch, Leila I - ETA CTR
Login.com strongly recommends that we use two methods of authentication in the event that we lose one.

0:30:6.390 --> 0:30:15.630
Lynch, Leila I - ETA CTR
Many of us use our cell phones as a method of authentication, and we tend to change our cell phone numbers or lose them.

0:30:16.800 --> 0:30:26.690
Lynch, Leila I - ETA CTR
We have gotten a quite a few requests to reestablish access for those who have changed their cell phone numbers or have lost them.

0:30:27.20 --> 0:30:32.690
Lynch, Leila I - ETA CTR
So we highly recommend that you do multiple methods of authentication.

0:30:33.520 --> 0:30:50.640
Lynch, Leila I - ETA CTR
Of course, if you need assistance, please reach out to us at scsep-help.zendesk.com. And at this time it's my pleasure to turn it over to Mark who will demo the ED report.

0:30:51.50 --> 0:30:51.540
Lynch, Leila I - ETA CTR
Thank you.

0:30:51.280 --> 0:30:52.930
Mark Amspoker
Ohh, thank you Leila.

0:30:53.400 --> 0:30:55.830
Mark Amspoker
I'm gonna start off with a couple corrections.

0:30:55.840 --> 0:30:56.830
Mark Amspoker
Let me share my screen.

0:31:0.190 --> 0:31:3.930
Mark Amspoker
And somebody in the National Office could tell me when you can see it.

0:31:7.280 --> 0:31:9.30
Wilson, Toni K - SCSEP
Yes, we can see it, yes.

0:31:7.960 --> 0:31:21.110
Mark Amspoker
You all can see it? Alright, so in the email that we sent out yesterday, there was one correction that I want to make right now and we've got, we're gonna send an updated email after this meeting and an updated spreadsheet.

0:31:21.400 --> 0:31:26.470
Mark Amspoker
This should say, in item 3C it should say “state”.

0:31:28.230 --> 0:31:29.460
Mark Amspoker
You can make that correction.

0:31:31.230 --> 0:31:43.290
Mark Amspoker
Right now or just wait for the email that'll come after the meeting. And then in the PY23 quarter, one spreadsheet, one of our brilliant grantees uncovered

0:31:44.980 --> 0:31:48.510
Mark Amspoker
Uh, an error in six of these formulas.

0:31:48.520 --> 0:31:49.750
Mark Amspoker
That's all that there is.

0:31:50.160 --> 0:31:58.260
Mark Amspoker
This B12 points back to this worksheet for the state, which is B, which is row eight.

0:31:59.660 --> 0:32:1.640
Mark Amspoker
So this should actually be 8.

0:32:3.800 --> 0:32:8.320
Mark Amspoker
And you all can make that correction or wait for the updated.

0:32:10.460 --> 0:32:10.930
Mark Amspoker
spreadsheet.

0:32:14.980 --> 0:32:22.310
Mark Amspoker
And then in the total national grantees summary, it says… pointing back to B10 to row 10.

0:32:22.660 --> 0:32:24.740
Mark Amspoker
It should be pointing back to row 6.

0:32:26.810 --> 0:32:28.320
Mark Amspoker
So I'm going to make that correction.

0:32:32.770 --> 0:32:35.800
Mark Amspoker
And everything else looks good in the

0:32:37.140 --> 0:32:39.180
Mark Amspoker
Worksheet that I'll demo.

0:32:41.210 --> 0:32:46.620
Mark Amspoker
OK, so we have a main tab that you will do your work in.

0:32:47.530 --> 0:32:51.840
Mark Amspoker
Do your analysis in, you put the results, the counts and such in the state worksheet.

0:32:51.850 --> 0:33:1.160
Mark Amspoker
If you're a state grantee, it'll automatically update the state summary tables which you need for your report, and if you're a national grantee, you'll put your data in the national worksheet.

0:33:1.710 --> 0:33:8.110
Mark Amspoker
All these formulas will then update and then it'll populate the national summary tables correctly.

0:33:8.350 --> 0:33:14.990
Mark Amspoker
Now if you only have your national grantee and you only have one state, you delete one of, you know, delete one of the rows for one of the states.

0:33:15.440 --> 0:33:21.180
Mark Amspoker
If you have more, more grantee, uh, more states, you'll just insert rows here.

0:33:23.510 --> 0:33:26.120
Mark Amspoker
And put in… a third state.

0:33:26.230 --> 0:33:35.290
Mark Amspoker
So it depends on the national grantee and how many states they have. And similar for this state grantee, uh.

0:33:35.620 --> 0:33:42.330
Mark Amspoker
If you have more nationals than just the two we're showing here in your state, you'll just add rows and add the additional grantees.

0:33:42.460 --> 0:33:46.90
Mark Amspoker
If you just have one, then you'll delete one of the grantees.

0:33:46.380 --> 0:33:48.960
Mark Amspoker
You will not touch the state row, you will not touch the total row.

0:33:52.480 --> 0:33:55.160
Mark Amspoker
Alright, so I'm going to do the demo on the state of Ohio.

0:33:56.540 --> 0:34:2.670
Mark Amspoker
Uh, I'm picking Ohio because that grantee administrator was the one who told us first about the incorrect enrollments.

0:34:3.520 --> 0:34:5.580
Mark Amspoker
So I'm gonna move to another.

0:34:6.860 --> 0:34:9.380
Mark Amspoker
So let me just talk about the sheet as a whole.

0:34:11.0 --> 0:34:14.250
Mark Amspoker
It has all of the national grantees, all the way across the top.

0:34:14.260 --> 0:34:25.640
Mark Amspoker
21 of them. And all the states, all the way to the bottom, there's just over 3000… FIPS codes, which is a unique code for county and the state.

0:34:26.370 --> 0:34:29.40
Mark Amspoker
There's about 200 more that are that are empty.

0:34:29.350 --> 0:34:40.950
Mark Amspoker
There's 3,241 FIPS codes right now in America, and so this report only has the counties and the states that have MP in them.

0:34:41.440 --> 0:34:43.770
Mark Amspoker
So you can rest… you can be rest assured about that.

0:34:44.100 --> 0:34:53.490
Mark Amspoker

And then I added these two columns which you… which state grantees will need to calculate their total state plus grantee numbers.

0:34:54.370 --> 0:34:56.130
Mark Amspoker
So you will need that; you'll never delete that.

0:34:57.560 --> 0:35:2.730
Mark Amspoker
Uhm, so now let me move over to… just the Ohio.

0:35:5.720 --> 0:35:6.930
Mark Amspoker
Look, look and feel.

0:35:7.740 --> 0:35:11.140
Mark Amspoker
So Ohio has six national grantees in their state.

0:35:12.270 --> 0:35:14.920
Mark Amspoker
Here are all the six, across here.

0:35:14.990 --> 0:35:23.580
Mark Amspoker
I eliminated all of the other national grantees for convenience. And the way that you'll start off is first, you'll do your state calculations.

0:35:23.890 --> 0:35:34.80
Mark Amspoker
So in the State MP column you will unselect the zero. Down here in the lower left hand corner you'll make note of how many counties there are.

0:35:34.420 --> 0:35:35.410
Mark Amspoker
You see that 30?

0:35:37.310 --> 0:35:41.500
Mark Amspoker
And you go down to your MP subtotal row and that's 259.

0:35:41.770 --> 0:35:52.360
Mark Amspoker
You're gonna immediately put that in this cell and that cell, B&C, and in the email we sent, there's all of these steps of the instructions have all these steps.

0:35:52.370 --> 0:35:53.540
Mark Amspoker
So they'll be they're there.

0:35:53.590 --> 0:35:55.960
Mark Amspoker
I just want to kind of quickly go through it in this demo.

0:35:57.940 --> 0:36:2.130
Mark Amspoker
Then you want to get your negative V counties for the state.

0:36:2.540 --> 0:36:3.930
Mark Amspoker
You will go to your V,

0:36:4.980 --> 0:36:8.920
Mark Amspoker
You will unselect the zero and all the positive numbers.

0:36:14.150 --> 0:36:16.780
Mark Amspoker
You will then look at the at the number down there.

0:36:16.790 --> 0:36:20.510
Mark Amspoker
There are 19,145, and 71.

0:36:22.760 --> 0:36:31.650
Mark Amspoker
19, 145, and 71. The 71 which is which is negative in the sort, over in the filter

0:36:31.660 --> 0:36:38.750
Mark Amspoker
Over here, you put it that as an absolute value, you don't put a negative number here. And then this formula will automatically calculate.

0:36:39.140 --> 0:36:42.10
Mark Amspoker
You then want to go back and do your positive V counties.

0:36:44.180 --> 0:36:45.160
Mark Amspoker
You'll unselect...

0:36:45.170 --> 0:36:49.250
Mark Amspoker
Well let's just ‘select all’ and unselect them, and we're just going to check our positive

0:36:52.300 --> 0:36:52.580
Mark Amspoker
Numbers.

0:36:53.910 --> 0:37:3.560
Mark Amspoker
We're going to immediately look down here and it says 8 counties with positive V. 101 MP and 45.

0:37:3.570 --> 0:37:8.160
Mark Amspoker
We're gonna go back, and we're gonna put 8, 101, 45.

0:37:8.290 --> 0:37:13.460
Mark Amspoker
This will automatically update. And your total average for over under will automatically calculate.

0:37:16.770 --> 0:37:29.0
Mark Amspoker
OK, now you're going to go back and you're going to select all of your V again, and you're going to select all of your…

0:37:31.40 --> 0:37:32.280
Mark Amspoker
You're going to recheck the zero.

0:37:33.770 --> 0:37:35.440
Mark Amspoker
Now you're going to do your national grantees.

0:37:36.370 --> 0:37:41.160
Mark Amspoker
You're always going to keep Ohio or your state, whatever it is, selected.

0:37:42.310 --> 0:37:45.800
Mark Amspoker
So the first national in Ohio happens to be AARP.

0:37:46.420 --> 0:37:52.450
Mark Amspoker
We are going to come up to AARP's MP and we are going to unselect the 0.

0:37:54.590 --> 0:38:4.360
Mark Amspoker
And we're immediately going to note that our six Counties, 194 MP. Going to go AARP 6 and 194.

0:38:5.450 --> 0:38:11.490
Mark Amspoker
Now we're going to do our county under. Go back to AARP, go back to the V column.

0:38:11.980 --> 0:38:14.540
Mark Amspoker
We are going to unselect the positive numbers.

0:38:14.550 --> 0:38:15.760
Mark Amspoker
There's no zero this time.

0:38:16.480 --> 0:38:21.100
Mark Amspoker
There are four counties with negative V, 35 total MP and 26.

0:38:25.210 --> 0:38:29.480
Mark Amspoker
4, 35, and 26.

0:38:29.490 --> 0:38:30.770
Mark Amspoker
Now we're gonna do the positive V.

0:38:37.80 --> 0:38:39.60
Mark Amspoker
And there's 139.

0:38:40.600 --> 0:38:47.70
Mark Amspoker
There are two counties with 159 MP and 40 total V.

0:38:48.730 --> 0:38:50.880
Mark Amspoker
2, 159, and 40.

0:38:51.170 --> 0:38:52.500
Mark Amspoker
This will automatically calculate.

0:38:52.510 --> 0:38:53.980
Mark Amspoker
This automatically calculate.

0:38:54.470 --> 0:38:57.220
Mark Amspoker
Well then… we are not gonna do it right now, but there you would proceed…

0:38:57.230 --> 0:39:2.380
Mark Amspoker
Ohio would proceed to do the rest of their national grantees once they're finished.

0:39:2.730 --> 0:39:18.910
Mark Amspoker
The total national will automatically populate. All of these, but the state and the national, will automatically be carried over into the summary tables for the state and the national here. Now that we've fixed these formulas, sorry about that.

0:39:19.770 --> 0:39:23.510
Mark Amspoker
All right, now we're going to… best thing to do

0:39:23.520 --> 0:39:27.650
Mark Amspoker
The total state, plus grantee is to come to the top of the table.

0:39:31.470 --> 0:39:34.170
Mark Amspoker
I can get to the top.

0:39:34.730 --> 0:39:35.100
Mark Amspoker
I don't know.

0:39:35.210 --> 0:39:35.790
Mark Amspoker
Letting Me unselect.

0:39:44.680 --> 0:39:45.720
Mark Amspoker
You select all.

0:39:48.170 --> 0:39:52.10
Mark Amspoker
Uh, I'm trying to scroll up to the top and I'm unable to.

0:39:53.720 --> 0:39:54.180
Mark Amspoker
Uh.

0:39:57.600 --> 0:39:58.930
Mark Amspoker
What is filtered?

0:39:58.940 --> 0:39:59.990
Mark Amspoker
What is filtered… let's?

0:40:2.860 --> 0:40:7.410
Mark Amspoker
Let me let me remove all the filter, clear all the filters.

0:40:7.580 --> 0:40:8.690
Mark Amspoker
Let's reselect Ohio.

0:40:14.610 --> 0:40:23.620
Mark Amspoker

OK, we want, if all of the filters off, of all the nationals and the state, we wanna… we wanna just select all of the Ohio counties again.

0:40:24.130 --> 0:40:26.40
Mark Amspoker
Now we're going to come back to these custom columns to compute our national plus state numbers.

0:40:32.540 --> 0:40:34.50
Mark Amspoker
So we come down to the bottom.

0:40:35.440 --> 0:40:40.30
Mark Amspoker
There are 88 total counties and 1,269 total MP.

0:40:41.690 --> 0:40:42.860
Mark Amspoker
Come back to our worksheet.

0:40:42.870 --> 0:40:43.780
Mark Amspoker
There's 88.

0:40:43.790 --> 0:40:51.690
Mark Amspoker
We want to put 88 because we want all the counties, we want all of the MP in all of the counties, there's 1,269.

0:40:51.700 --> 0:40:53.430
Mark Amspoker
Now, we want to do all of the county under.

0:40:55.320 --> 0:40:56.390
Mark Amspoker
Come back here.

0:40:57.100 --> 0:41:2.800
Mark Amspoker
This time there's a lot of numbers, so we're gonna just do a number filter less than 0.

0:41:7.50 --> 0:41:15.420
Mark Amspoker
Here is 62, 644 and 280. 62, 644, 280.

0:41:15.430 --> 0:41:17.60
Mark Amspoker
This will automatically calculate.

0:41:17.480 --> 0:41:18.920
Mark Amspoker
Now we do our positive V.

0:41:20.440 --> 0:41:25.650
Mark Amspoker
Let's do a number filter again, greater than zero this time.

0:41:28.600 --> 0:41:31.980
Mark Amspoker
23, 617, 222.

0:41:34.310 --> 0:41:51.160
Mark Amspoker
23, 617, 222 this will automatically calculate. And this will also… and now Ohio is done. And the totals… the values here and the total state national column of row automatically update the tables here.

0:41:54.60 --> 0:41:56.690
Mark Amspoker
Alright, I now want to do what the national grantee would do.

0:41:58.760 --> 0:42:4.740
Mark Amspoker
And I've selected NOWCC for this demonstration, and I've removed all the other national grantees.

0:42:6.330 --> 0:42:14.470
Mark Amspoker
So the first thing the national grantee will do is in his MP column, it will uncheck the 0.

0:42:16.690 --> 0:42:19.480
Mark Amspoker
That will reveal which states you are in.

0:42:20.170 --> 0:42:22.850
Mark Amspoker
And NOWCC is in California and Wyoming.

0:42:24.60 --> 0:42:25.890
Mark Amspoker
We want to do California first.

0:42:28.400 --> 0:42:29.700
Mark Amspoker
Let's select California.

0:42:31.660 --> 0:42:39.20
Mark Amspoker
Note the number of counties in California. NOWCC has in California: 19.

0:42:41.480 --> 0:42:46.270
Mark Amspoker
And 80 will go to the national worksheet for California, 19 and 80.

0:42:46.960 --> 0:42:57.510
Mark Amspoker
Now we wanna do the county under. The V under and we'll unselect in our V column all of the positive numbers.

0:42:59.690 --> 0:43:3.380
Mark Amspoker
There are 12, 41, and 29.

0:43:4.400 --> 0:43:5.290
Mark Amspoker
I hope I'm right?

0:43:5.340 --> 0:43:8.400
Mark Amspoker
Yep, 12, 41, 29.

0:43:9.350 --> 0:43:13.690
Mark Amspoker
That's our negative V and that's an absolute number as always.

0:43:14.500 --> 0:43:20.860
Mark Amspoker
Now we want to do our positive V and then check all the positive numbers.

0:43:22.550 --> 0:43:23.420
Mark Amspoker
But not 0.

0:43:25.380 --> 0:43:29.660
Mark Amspoker
Note the number of counties. There are 6, 37, and 72.

0:43:32.380 --> 0:43:36.230
Mark Amspoker
6, 37, 72. Wow they're way over.

0:43:36.500 --> 0:43:42.850
Mark Amspoker
But that's the that's the reality for this quarter and these will calculate correctly and these will

0:43:42.900 --> 0:43:44.230
Mark Amspoker
calculate correctly.

0:43:44.380 --> 0:43:48.590
Mark Amspoker
He would then do… you know NOWCC would then do the same drill for Wyoming.

0:43:48.970 --> 0:43:55.760
Mark Amspoker
The state's total would automatically update and the summary tables for all of that for each state.

0:43:57.460 --> 0:44:0.130
Mark Amspoker
I don't know if the national needs it in this format.

0:44:0.240 --> 0:44:9.520
Mark Amspoker
I did see another a grantee did submit another table from the… your report that the from the section one that looked different from this.

0:44:9.530 --> 0:44:16.880
Mark Amspoker
But you can just get your numbers out of here or get your numbers out of here and put it into the correct format.

0:44:18.990 --> 0:44:23.70
Mark Amspoker
Uh, that's all I had to show.

0:44:26.170 --> 0:44:28.840
Mark Amspoker
Today, any questions?

0:44:32.60 --> 0:44:32.390
Wilson, Toni K - SCSEP
Right.

0:44:32.400 --> 0:44:38.370
Wilson, Toni K - SCSEP
If you have some questions for Mark, if you can put those in the chat, we'll get to those in a minute.

0:44:38.980 --> 0:44:41.230
Wilson, Toni K - SCSEP
In the meantime, thank you so much, Mark.

0:44:41.420 --> 0:44:44.460
Wilson, Toni K - SCSEP
We appreciate you taking the time to kind of walk through.

0:44:44.600 --> 0:44:46.930
Wilson, Toni K - SCSEP
I know that this can seem a little challenging.

0:44:46.940 --> 0:44:48.790
Wilson, Toni K - SCSEP
I had kind of the same reaction.

0:44:53.320 --> 0:44:53.620
Mark Amspoker
Yeah.

0:44:48.800 --> 0:44:54.50
Wilson, Toni K - SCSEP
I'm praying that AI will be able to do this in the coming years.

0:44:54.580 --> 0:44:59.260
Wilson, Toni K - SCSEP
Please know, I'm working behind the scenes to try to see if we can make that happen, but in the meantime.

0:45:0.800 --> 0:45:2.160
Wilson, Toni K - SCSEP
Mark has done a great job.

0:45:1.140 --> 0:45:3.790
Mark Amspoker
I keep reading that AI is very dangerous, Toni.

0:45:3.890 --> 0:45:6.140
Wilson, Toni K - SCSEP
Yes, I know, I know, I know.

0:45:3.900 --> 0:45:6.590
Mark Amspoker
I don't, I don't know, OK.

0:45:6.870 --> 0:45:13.820
Wilson, Toni K - SCSEP
But in the meantime, please know that Mark and team has spelled out all the steps.

0:45:14.310 --> 0:45:23.640
Wilson, Toni K - SCSEP
So we wanted you to least see a visual of this and that way when you're looking at the steps, you've kind of have an idea of what you saw on the screen.

0:45:24.40 --> 0:45:25.40
Wilson, Toni K - SCSEP
And then it's always.

0:45:25.50 --> 0:45:29.10
Wilson, Toni K - SCSEP
If you have questions, you know, definitely please reach out.

0:45:30.420 --> 0:45:35.370
Wilson, Toni K - SCSEP
And we can assist you individually on your questions.

0:45:35.380 --> 0:45:35.820
Wilson, Toni K - SCSEP
Where needed.

0:45:37.150 --> 0:45:42.330
Wilson, Toni K - SCSEP
Alright, let's see if there's any questions for Mark before we move to the larger questions.

0:45:43.860 --> 0:45:47.330
Wilson, Toni K - SCSEP
I just wanted to make sure that we answered your question.

0:45:47.540 --> 0:45:52.610
Wilson, Toni K - SCSEP
I know you had shown one on States and ones on national.

0:45:52.940 --> 0:45:56.420
Wilson, Toni K - SCSEP
There was a question if you had states, but no national grantees.

0:46:0.40 --> 0:46:0.970
Mark Amspoker
What about this one?

0:45:57.0 --> 0:46:1.100
Wilson, Toni K - SCSEP
I'm just making sure that that was that was a covered.

0:46:0.980 --> 0:46:4.130
Mark Amspoker
Can you can you speak to the discrepancy and enrollment totals?

0:46:4.220 --> 0:46:6.530
Mark Amspoker
Did anybody answer that, Ali?

0:46:6.540 --> 0:46:7.190
Mark Amspoker
Did you answer that?

0:46:9.150 --> 0:46:9.420
Mark Amspoker
OK.

0:46:8.400 --> 0:46:9.530
Wilson, Toni K - SCSEP
If we could answer that one.

0:46:9.830 --> 0:46:10.800
Mark Amspoker
Yeah.

0:46:10.950 --> 0:46:19.120
Mark Amspoker
Uh, we found out that the… those enrollment numbers were including participants who exited in the quarter.

0:46:19.490 --> 0:46:33.760
Mark Amspoker
It is only supposed to be everybody who was active on the last day of that of that quarter and that's clearly spelled out in all of the definitions and every description of the report that you can find.

0:46:37.50 --> 0:46:37.380
Slaughter, Alison S - ETA
Yeah.

0:46:34.300 --> 0:46:37.950
Mark Amspoker
So they are now redoing those numbers.

0:46:44.410 --> 0:46:44.720
Mark Amspoker
Right.

0:46:37.390 --> 0:46:46.380
Slaughter, Alison S - ETA
So like Mark shared, Yep, it was showing the like basically a currently or a total assisted in the quarter versus a currently enrolled at the last day of the quarter.

0:46:46.570 --> 0:46:53.20
Slaughter, Alison S - ETA
So that if you're spreadsheet that you received from Mark is looking lower than what's in GPMS and that's correct, it should be.

0:46:53.270 --> 0:46:58.890
Slaughter, Alison S - ETA
GPMS was showing a lot of over enrollments for most grantees, and the spreadsheets are the correct information.

0:46:59.360 --> 0:47:0.190
Mark Amspoker
Yeah, he was Rick.

0:47:0.200 --> 0:47:1.230
Mark Amspoker
Rick has a good question.

0:47:1.240 --> 0:47:4.360
Mark Amspoker
If you do add grantees in that worksheet, you need to add an additional chart.

0:47:4.370 --> 0:47:10.590
Mark Amspoker
Yeah, you would add additional chart if you get troubled by that or you get confused by that.

0:47:10.600 --> 0:47:14.730
Mark Amspoker
Just send me an Zendesk request and I'll do the report for you.

0:47:14.800 --> 0:47:17.570
Mark Amspoker
I'll do the extra for you, somebody said:

0:47:17.580 --> 0:47:18.560
Mark Amspoker
“Bless your ministry, Mark.”

0:47:18.570 --> 0:47:23.190
Mark Amspoker
I'm not religious guy, but OK, and that's helpful.

0:47:23.200 --> 0:47:24.190
Mark Amspoker
Thank you. OK.

0:47:25.480 --> 0:47:30.700
Wilson, Toni K - SCSEP
Alright and Please remember that we'll be sending that updated email out.

0:47:30.920 --> 0:47:32.650
Wilson, Toni K - SCSEP
Umm today.

0:47:32.660 --> 0:47:38.20
Wilson, Toni K - SCSEP
Hopefully, shortly after this meeting, so don't even you know, don't get yourself confused.

0:47:38.30 --> 0:47:44.210
Wilson, Toni K - SCSEP
Just wait for that updated one before you dive in or ask some additional questions.

0:47:45.800 --> 0:47:47.990
Wilson, Toni K - SCSEP
Alright, alright.

0:47:48.0 --> 0:47:57.440
Wilson, Toni K - SCSEP
Well, with that said, before I move to any Q&A or grantee highlights, is there anything else that I missed in reference to our team?

0:47:58.0 --> 0:48:2.70
Adams, Anita (Irene) - ETA
Toni, I just want to make sure that Pam saw the response to her question.

0:48:4.540 --> 0:48:5.410
Adams, Anita (Irene) - ETA
This is in the chat.

0:48:5.460 --> 0:48:7.810
Adams, Anita (Irene) - ETA
I put it in there, up earlier.

0:48:7.980 --> 0:48:8.520
Adams, Anita (Irene) - ETA
It's...

0:48:11.410 --> 0:48:12.30
Wilson, Toni K - SCSEP
No, right?

0:48:8.580 --> 0:48:20.110
Adams, Anita (Irene) - ETA
If she scrolls up, she'll see the response, and if she has any further questions, then Byron and her and FPO will be happy to answer the questions for them.

0:48:19.450 --> 0:48:32.30
Wilson, Toni K - SCSEP
Alright, so hopefully you see that in the chat that everyone sees that as you can see, we're basically wanna know if your state is requiring a sick leave accrual policy and how you're approaching this requirement.

0:48:32.460 --> 0:48:39.420
Wilson, Toni K - SCSEP
And Irene has included kind of the details of the of the statute there.

0:48:39.430 --> 0:48:48.530
Wilson, Toni K - SCSEP
So if you can look at that, if anyone has any specific questions or anything that you wanted to share on that as Irene says, please share that with your FPO.

0:48:48.870 --> 0:48:54.600
Wilson, Toni K - SCSEP
And we just want to make sure that everyone is in compliance in this area.

0:48:56.60 --> 0:48:56.580
Wilson, Toni K - SCSEP
Alright.

0:48:57.90 --> 0:48:57.680
Wilson, Toni K - SCSEP
Umm.

0:48:58.150 --> 0:48:58.660
Wilson, Toni K - SCSEP
Let's see.

0:48:58.670 --> 0:49:0.140
Wilson, Toni K - SCSEP
So let's open it up.

0:49:0.210 --> 0:49:9.300
Wilson, Toni K - SCSEP
If there are any grantee highlights or any questions at this time?

0:49:8.700 --> 0:49:10.130
Mark Amspoker
Joshua did have a question.

0:49:10.780 --> 0:49:11.330
Wilson, Toni K - SCSEP
Alright.

0:49:12.480 --> 0:49:15.260
Mark Amspoker
Can we also get reports to show how many people were served in the quarter?

0:49:15.270 --> 0:49:20.450
Mark Amspoker
Well, that's in the QPR, Joshua, that's the service level measure.

0:49:21.60 --> 0:49:22.970
Joshua Wadsworth
The… can you show…?

0:49:23.20 --> 0:49:26.80
Joshua Wadsworth
Uh, maybe help us understand how to get the QPR by county.

0:49:27.830 --> 0:49:30.170
Joshua Wadsworth
I understand how I get QPR by

0:49:32.170 --> 0:49:35.450
Joshua Wadsworth
Grantee or state or subgrantee, but that's not

0:49:37.310 --> 0:49:49.80
Joshua Wadsworth
Really relevant to the equitable distribution. So I'd really like to, if possible, to get umm I'll look at how many people we served total in a quarter.

0:49:49.510 --> 0:49:49.760
Joshua Wadsworth
Right?

0:49:49.770 --> 0:49:59.300
Joshua Wadsworth
Because that's really, I think, addressing the equitable distribution in a they're telling the full story rather than just a point in time snapshot.

0:49:59.770 --> 0:50:4.670
Joshua Wadsworth
And then again like as Rick added in the chat: are the QPRs accurate?

0:50:7.80 --> 0:50:8.400
Joshua Wadsworth
We're not, we're not convinced.

0:50:9.390 --> 0:50:9.870
Mark Amspoker
No, we're.

0:50:12.870 --> 0:50:13.110
Joshua Wadsworth
So.

0:50:9.880 --> 0:50:13.390
Mark Amspoker
They’re still, they’re still a work in progress and we're moving towards that.

0:50:14.130 --> 0:50:17.440
Mark Amspoker
You can get your people served by the current exited report.

0:50:18.10 --> 0:50:20.590
Mark Amspoker
You can get a list of how many people were served that way.

0:50:22.610 --> 0:50:22.870
Wilson, Toni K - SCSEP
Yes.

0:50:25.780 --> 0:50:27.90
Mark Amspoker
No, it has the address.

0:50:22.880 --> 0:50:27.670
Wilson, Toni K - SCSEP
So it's not in that… the report that we sent out?

0:50:27.100 --> 0:50:29.900
Mark Amspoker
It has the county, it has the address, and has the subgrantee.

0:50:32.80 --> 0:50:32.240
Slaughter, Alison S - ETA
And.

0:50:32.0 --> 0:50:33.980
Wilson, Toni K - SCSEP
And yet… oh, you go ahead, Ali.

0:50:34.480 --> 0:50:34.750
Slaughter, Alison S - ETA
Yeah.

0:50:34.760 --> 0:50:46.370
Slaughter, Alison S - ETA
I just want to add with equitable distribution, we really are looking at the… not the current the total served in a quarter, but we're really looking at how many slots in that county are filled at a given time.

0:50:47.540 --> 0:50:47.980
Joshua Wadsworth
Right.

0:50:46.600 --> 0:50:54.90
Slaughter, Alison S - ETA
So that's why these report are trying to show not total served, but the total enrolled at a current time.

0:50:59.650 --> 0:50:59.870
Joshua Wadsworth
Yeah.

0:50:54.320 --> 0:51:3.70
Slaughter, Alison S - ETA
So for the point of the report, would really point to using those data sources that were provided, and then once the QPRs are available, you know we can

0:51:3.320 --> 0:51:6.330
Slaughter, Alison S - ETA
That, combined with those other reports, can give the additional information.

0:51:6.810 --> 0:51:7.100
Joshua Wadsworth
Sure.

0:51:7.110 --> 0:51:17.130
Joshua Wadsworth
Yeah, I think my point is: in terms of addressing, like, what's meaningful variance, which is part of the task, the full picture of how many people are being served.

0:51:17.140 --> 0:51:26.0
Joshua Wadsworth
So you know, I could have had five people exit the day before that point in time snapshot, and it looks like my county is under enrolled.

0:51:26.90 --> 0:51:28.620
Joshua Wadsworth
But in terms of, like, is that meaningful?

0:51:28.730 --> 0:51:36.450
Joshua Wadsworth
What, you know, implications we take with our sub grantee or whatever strategies for recruitment and enrollment are going to be completely different.

0:51:37.20 --> 0:51:43.310
Joshua Wadsworth
Uh, you know, if we hit our service level goal and we served a lot of people in between those snapshots.

0:51:43.360 --> 0:51:53.130
Joshua Wadsworth
So it's a different response in terms of our report and our potential interventions with, you know, subgrantees on the ground.

0:51:53.140 --> 0:52:2.150
Joshua Wadsworth
And so, like the… we'd like to see some of that stuff up front without having to do as much deciphering on our own if possible, so.

0:52:3.270 --> 0:52:3.910
Wilson, Toni K - SCSEP
Well, I think that's…

0:52:3.310 --> 0:52:6.400
Mark Amspoker
Well, now the enrollments are calculated overnight.

0:52:6.410 --> 0:52:13.720
Mark Amspoker
So those are those are daily updates now after 30 days after the end of the quarter, they're supposed to be frozen.

0:52:13.950 --> 0:52:15.350
Mark Amspoker
So that report would be frozen.

0:52:15.360 --> 0:52:16.560
Mark Amspoker
That does not happen.

0:52:16.570 --> 0:52:19.160
Mark Amspoker
That has not been built yet, but that will be down the road.

0:52:21.100 --> 0:52:21.500
Wilson, Toni K - SCSEP
And I think…

0:52:21.10 --> 0:52:27.190
Mark Amspoker
But at any point in time, you can see, uh, you can pull up one of the reports.

0:52:27.200 --> 0:52:35.390
Mark Amspoker
Look at the counties where you have a presence, whether it's a state or national, you can see what your variance is and how many enrollments you have as of the night before.

0:52:37.260 --> 0:52:38.610
Wilson, Toni K - SCSEP
I do hear what you're saying

0:52:38.620 --> 0:52:39.510
Wilson, Toni K - SCSEP
Uh Josh, in

0:52:39.520 --> 0:52:42.890
Wilson, Toni K - SCSEP
Reference to it being connected to the ED.

0:52:42.980 --> 0:52:46.200
Wilson, Toni K - SCSEP
Report. It hadn't in the past, at least in my understanding.

0:52:47.130 --> 0:52:47.390
Joshua Wadsworth
Um hmm.

0:52:47.440 --> 0:52:55.870
Wilson, Toni K - SCSEP
I think it's something to maybe consider in reference to future pieces, especially once we have all of our systems, you know, at a stronger state.

0:52:56.200 --> 0:52:59.690
Wilson, Toni K - SCSEP
So we'll definitely, you know, keep that in consideration.

0:53:0.240 --> 0:53:1.520
Wilson, Toni K - SCSEP
But right now it would…

0:53:1.530 --> 0:53:10.220
Wilson, Toni K - SCSEP
We would have to kind of use the GPMS pieces as a, you know, has that has been stated.

0:53:11.360 --> 0:53:11.770
Joshua Wadsworth
OK.

0:53:11.810 --> 0:53:23.100
Joshua Wadsworth
And if we're struggling with putting together some of those reports ourselves filtering and the current exited report as suggested, can we submit a Zendesk ticket for that help with that?

0:53:24.850 --> 0:53:25.650
Mark Amspoker
Yeah, anytime.

0:53:26.670 --> 0:53:27.140
Joshua Wadsworth
Awesome.

0:53:27.150 --> 0:53:27.500
Joshua Wadsworth
Thank you.

0:53:28.350 --> 0:53:30.230
Mark Amspoker
And I've done a report for you in the past, Joshua.

0:53:31.900 --> 0:53:33.140
Joshua Wadsworth
We appreciate it. Thanks.

0:53:33.70 --> 0:53:33.450
Mark Amspoker
OK.

0:53:35.50 --> 0:53:37.730
Wilson, Toni K - SCSEP
And in reference to

0:53:37.740 --> 0:53:43.650
Wilson, Toni K - SCSEP
Obviously, the big question and elephant in the room in reference to: are the QPR's accurate?

0:53:44.0 --> 0:53:53.500
Wilson, Toni K - SCSEP
As I said, we are still working in reference to these various 2 releases to make them officially accurate.

0:53:53.840 --> 0:54:4.450
Wilson, Toni K - SCSEP
They are close. But as you know, as we've done a release and they break something else and so we are still not at a stage where we would say they are 100% accurate.

0:54:4.560 --> 0:54:10.610
Wilson, Toni K - SCSEP
I don't know if Ali or BCT would like to add anything in reference to any specifics to that.

0:54:13.290 --> 0:54:14.260
Slaughter, Alison S - ETA
I'll just add that

0:54:14.270 --> 0:54:26.420
Slaughter, Alison S - ETA
you know, you're continuing to receive those quarterly manual QPRs via email and the final PY 22 data should be coming out very shortly as well.

0:54:26.430 --> 0:54:28.320
Slaughter, Alison S - ETA
So that's what we're sort of using in the interim.

0:54:28.700 --> 0:54:34.70
Slaughter, Alison S - ETA
And again, if you're continuing to see anything in the system please submit that as a Zendesk ticket.

0:54:34.990 --> 0:54:52.70
Wilson, Toni K - SCSEP
Yes, we definitely are using that and the feedback from the GPMS V-Live to make any course corrections, so hopefully we are quickly reaching the end to this, cause as much as you guys want this fixed

0:54:52.80 --> 0:54:56.740
Wilson, Toni K - SCSEP
Believe me, I 100% agree with that.

0:54:56.750 --> 0:55:6.700
Wilson, Toni K - SCSEP

So we're working hard on that, and we'll keep you posted. And just keep an eye out on these next two releases because we're hoping that will be a place that the tide may turn.

0:55:9.450 --> 0:55:9.800
Wilson, Toni K - SCSEP
Right.

0:55:9.850 --> 0:55:10.520
Wilson, Toni K - SCSEP
Other questions.

0:55:16.250 --> 0:55:20.690
Wilson, Toni K - SCSEP
So… the data validation case list: when will that be sent out?

0:55:24.750 --> 0:55:26.450
Slaughter, Alison S - ETA
We don't have a date right now.

0:55:26.460 --> 0:55:30.690
Slaughter, Alison S - ETA
That's still being worked on in GPMS, but we will be sure to update everyone when we do have that date.

0:55:34.770 --> 0:55:42.450
Wilson, Toni K - SCSEP
So once again, that's what you know, just as a reminder, you know, obviously all of these things are kind of backlogged because of the work with GPMS.

0:55:42.530 --> 0:55:55.780
Wilson, Toni K - SCSEP
And so we were trying to make sure that we get all of the updates out to you through email and then also through the GPMS newsletters and on the V-Live, just in reference to what the current status is.

0:55:55.900 --> 0:55:57.330
Wilson, Toni K - SCSEP
And then we'll continue to,

0:55:59.880 --> 0:56:5.870
Wilson, Toni K - SCSEP
You know, the priority obviously to get these QPR's and then we'll be moving forward with the remaining reports.

0:56:8.640 --> 0:56:9.30
Gerrard, Lisa
Hi.

0:56:9.300 --> 0:56:11.900
Gerrard, Lisa
So this is Lisa Gerrard that I asked the question about

0:56:11.910 --> 0:56:28.560
Gerrard, Lisa
The data validation worksheets? We have to do monitoring. And our monitoring schedule has already been made, but it doesn't make any real sense to go out and monitor without the data validation worksheets. [unintelligible].

0:56:28.770 --> 0:56:31.70
Gerrard, Lisa
Any clue when we're gonna get those?

0:56:34.400 --> 0:56:38.990
Wilson, Toni K - SCSEP
So right now we don't have an official date because we are still working with system.

0:56:39.0 --> 0:56:45.130
Wilson, Toni K - SCSEP
However, you know, as Ali said, we've been able to kind of pull information behind the scenes.

0:56:45.140 --> 0:56:54.980
Wilson, Toni K - SCSEP
So if that's the case, you know please work with your NOL and we can see, you know, what information we might be able to pull ahead of any monitoring visit.

0:57:0.120 --> 0:57:3.960
Wilson, Toni K - SCSEP
Alright, other questions, have we answered the other questions in the chat?

0:57:8.720 --> 0:57:16.650
Wilson, Toni K - SCSEP
I see that CWI has a put in example, so let's make sure we capture that in reference to the state sick leave.

0:57:16.720 --> 0:57:18.500
Wilson, Toni K - SCSEP
So just want to flag that for you, Irene.

0:57:24.260 --> 0:57:28.300
Wilson, Toni K - SCSEP
And we don't have an official date yet in reference to the state plans

0:57:28.580 --> 0:57:30.430
Wilson, Toni K - SCSEP
Umm, release date.

0:57:30.700 --> 0:57:33.750
Wilson, Toni K - SCSEP
But we do expect that you know this early winter

0:57:33.760 --> 0:57:37.160
Wilson, Toni K - SCSEP
So please definitely keep an eye out for that.

0:57:43.290 --> 0:57:47.20
Wilson, Toni K - SCSEP
Any other questions or highlights that anyone would like to share?

0:57:49.570 --> 0:58:0.160
Wilson, Toni K - SCSEP
If not, I know we're about one minute over, so we will be meeting again on Wednesday, February 21st and hopefully we'll have some more updates for you at that time.

0:58:0.690 --> 0:58:6.880
Wilson, Toni K - SCSEP
And in the meantime, you know, everyone have a really good day and we really do appreciate your patience on all of this.

0:58:7.210 --> 0:58:8.770
Wilson, Toni K - SCSEP
Thank you again, and thank you to the team.

0:58:10.860 --> 0:58:11.420
Mauro, Kevin M - ETA CTR
Thanks Toni.

0:58:11.890 --> 0:58:12.420
Wilson, Toni K - SCSEP
All righty.

0:58:12.430 --> 0:58:13.10
Wilson, Toni K - SCSEP
Bye bye everyone.
