

Now Enrolling:

Bioscience Certificate

Have you considered a career in

Bioscience?

Bioscience companies are involved in production, research, development, consulting and testing. The industry extends across different markets and includes manufacturing, services, research and health care-related activities.

Together with BioOhio, Owens Community College is offering a new, 29-credit-hour certificate in this field. If accepted into the program, student tuition not covered by other state and federal funds will be covered by a federal grant.

Curriculum includes:

- Chemistry, Biology, Microbiology & Immunology concepts & lab components
- Anatomy & Physiology and related lab components
- Biotechnology lab components

- Hands-on troubleshooting in the areas of computer hardware and software

This certificate will prepare you for careers in these fields:

- Pharmaceuticals and therapeutics
- Medical device and equipment manufacturers
- Research and development facilities
- Medical laboratories
- Diagnostic imaging centers
- Agriculture feedstock and chemicals
- And more.
