Green job training
for the 21st Century

Lake Land College is leading the nation in creating an energy independent campus and green courses and programs that meet the career demands of the growing sustainability field. As a student in one of the college's *new green courses* or programs your experience will include:

Training on industry equipment in:

- solar/photovoltaic
- wind power including active turbines
- green buildings
- smart grid technology

Lake Land College

In addition, LLC has state-of-the-art computer, electrical, welding, mechanical, and building construction labs where you can get hands-on skills using the tools of these industries.
