Product types include competency models and career ladders; curriculum and course materials; outreach materials; program management and implementation tools; and reports and databases.)	Outreach Materials
Complete Product Description (The product description should thoroughly describe the product and use of the product.)	Booklet provides examples of transferable skills and reemployment opportunities within Construction and Manufacturing.
File and Folder Names that Correspond to the Product	http://www.greenjobs.state.nm.us/pdf/Reemployment.pdf
Program and Product Context (Many grant products are developed as part of a larger project. What was this product's purpose or function in its original setting? This is a good time to write a short synopsis of the purpose of the grant, the grant activities, the objectives of the grant and the objectives of this particular product package.)	Booklet provides examples, in visual form, of transferable skills and reemployment opportunities within Construction and Manufacturing industries.

Target Groups (Who are the end users of the product? For example, high school students, community college teachers, dislocated or incumbent workers, ESL trainees, businesses, local government officials, the general public, etc.)	Displaced workers from construction and manufacturing industries.
Dissemination Audience (What key players in the workforce system are most likely to access these materials and work with them? College teachers, OJT coordinators, WIB members, marketing and dissemination staff, etc.)	Visitors of the MGJWC; Job Fairs; workforce Connection offices; marketing efforts; end-users researching about green-related occupations within construction and manufacturing industries within NM (Green Job Web Portal).
Other Information (What other information would another organization need to know in order to replicate this product? For example, what is the number of contact hours? Number of modules? Courses? Class sessions? Distribution size? Issues with implementing the product? etc.)	All of the necessary information to replicate this product is provided in this product package.
