Green Core Area Definitions

The Georgia Department of Labor's Workforce Statistics & Economic Research Division has identified five core areas of green business activities and green jobs. Green activities and jobs fall under one or more of the following five core areas:

- **Renewable Energy** – activities related to developing and using renewable energy sources such as solar, wind, geothermal, and biomass, as well as traditional, non-renewable sources of energy undergoing significant green technological changes (e.g., oil, coal, gas, and nuclear)

- **Energy Efficiency** – activities related to increasing energy efficiency (broadly defined), making energy demand response more effective, constructing "smart grids", and other energy efficient activities

- **Pollution Reduction & Removal, Greenhouse Gas Reduction, & Recycling & Reuse** – activities related to reducing or eliminating the creation or release of pollutants or hazardous waste from the environment, reducing greenhouse gas emissions through methods other than renewable energy generation and energy efficiency, such as electricity generated from nuclear sources, or reusing, remanufacturing, composting, or avoiding creation of waste materials or wastewater

- **Natural Resources Conservation** – activities related to reducing the environmental impact of agricultural production and improving natural resources conservation, including the use of chemical fertilizers and pesticides, soil and water conservation, sustainable forestry, land management, and wildlife preservation

- **Environmental Compliance, Education & Training, & Public Awareness** – activities related to enforcing environmental regulations, providing education & training related to green technologies & practices, & increasing public awareness of environmental issues

Georgia's GREEN JOBS 4

Service Delivery Region

Three Rivers

Includes the following counties in the vicinity of the cities of LaGrange and Newnan: Butts, Carroll, Coweta, Heard, Lamar, Meriwether, Pike, Spalding, Troup, and Upson

Georgia Department of Labor
Workforce Statistics & Economic Research Division
Mark Butler, Commissioner

The Georgia Department of Labor recently conducted a Green Jobs Survey to assess current levels of "green" employment in the state. This pamphlet presents our findings for Service Delivery Region (SDR) #4 – Three Rivers.

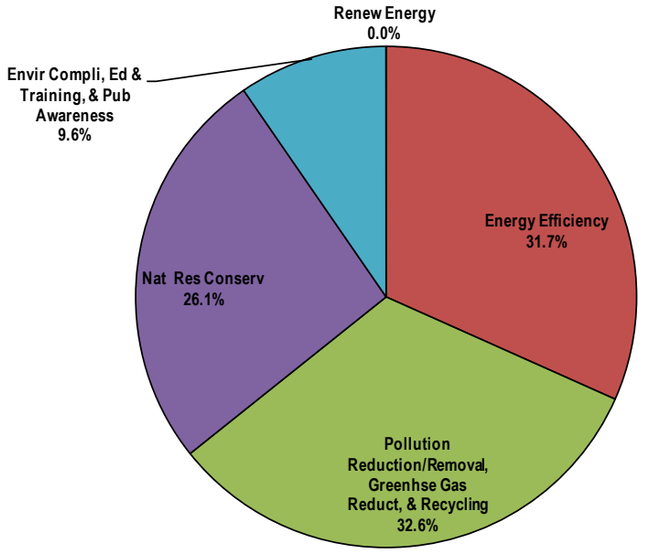

Broadly defined, a green job is one that produces goods or provides services that benefit the environment. The work can be found in at least one of the five core green economic clusters listed on the back of this pamphlet.

Less than one percent of all jobs in this region are green, slightly less than the percentage in the state as a whole. Of the approximately 40,000 total green jobs in Georgia, 670, or almost two percent, are located in this region. These jobs can be found in every green economic cluster except renewable energy, in seven major industry sectors, and in 28 different occupations. They range from jobs that do not require any education beyond high school to positions that require an advanced degree.

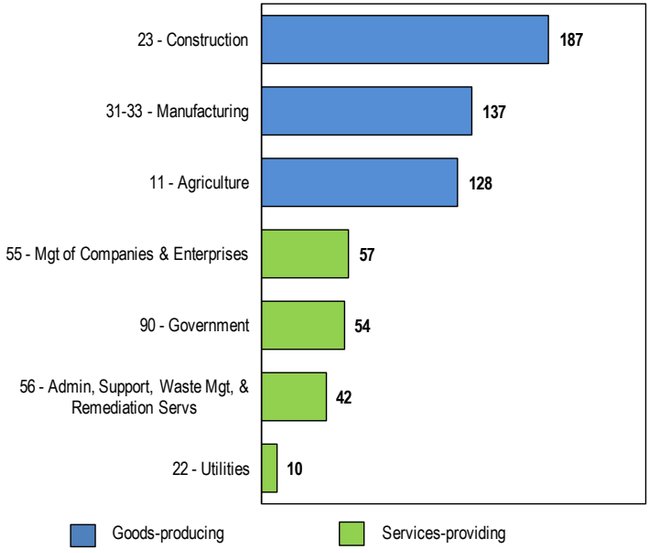

Survey Highlights

- One half of the 28 occupations had an average wage higher than Georgia's mean wage ($19.87) for all occupational employment, while 12 occupations had an average wage ($22.64) higher than all green jobs combined.
- The Three Rivers SDR was one of two regions that saw its average wage ($17.12) for green jobs lower than the average wage ($17.31) for all its occupations.
- This region was one of six that had no green jobs in the renewable energy core area.
- Seventy-three percent of employment in the top ten green jobs is located in goods-producing industry sectors.
- Only one of the top ten green jobs in this region requires any education beyond high school.

Employment by Green Core Area

Green Jobs by Industry Sector

Top Ten Green Jobs

SOC Code	Occupation	Job Prep Level	Average Wage
33-2022	Forest Fire Inspectors & Prevention Specialists	8	N/A
45-2092	Farmworkers & Laborers, Crop, Nursery, & Greenhouse	11	$8.71
45-4011	Forest & Conservation Workers	10	$11.66
47-1011	Supvsrs of Construction Trades & Extraction Wkrs	8	$26.23
47-2061	Construction Laborers	10	$13.10
49-9021	Heat, Air Cond, & Refrig Mechanics & Installers	7	$18.20
51-2022	Electrical & Electronic Equipment Assemblers	11	$15.55
51-8031	Water & Liquid Waste Treatment Plant & System Operators	9	$17.61
53-7063	Machine Feeders & Offbearers	11	$12.28
53-7081	Refuse & Recyclable Material Collectors	11	$12.54
